Contact.: +91-8279360051

SKILLS

Languages:	C++, C , Java, JavaScript, C#
Technologies/Frameworks:	React JS, Node JS, Git, GitHub, Ubuntu, Arch, Next JS, MongoDB
Technical-Skills:	Data Structures and Algorithms, DBMS, OS, Design System
Tools:	Figma, Blender, Unity 3D, Adobe Mixamo
Soft-Skills:	Problem Solving, Creative, Curious

PROJECTS

lvl_0 | The OS for Gamers | MERN Stack, Socket.IO [Link](#) | [GitHub](#) Dec/2025 – Mar/2026

- **Architected** a real-time WebSocket chat system sustaining **1,000+ messages/min** at under **200ms latency**
- **Designed** and built the **end-to-end UI for lvl_0** - establishing a cohesive dark-themed visual identity for a gaming platform
- **Slashed** chat latency by **40%** via optimized Socket.IO event handling and client-side state management
- **Integrated** RAWG API with server-side caching, serving **10,000+ game records** while cutting idle API calls by **40%**
- **Designed** data visualization (rating breakdowns, player stats) balancing **density with readability** for the game detail page

DSA Forge | MERN Stack, Monaco Editor [Link](#) | [GitHub](#) Jan/2026 – Feb/2026

- **DSA Forge**, a programming practice platform featuring structured DSA learning paths with progressive problem difficulty
- **Solely designed and built** dynamic UI systems enabling **real-time feedback**
- Optimized frontend architecture with dynamic component loading, reducing page load and render time by **30%**
- **Designed** frontend architecture for **dynamic problem rendering and interactive practice flows**.
- Engineered a custom code submission and evaluation pipeline processing **100+submissions/min** with quick response time

Byte-Code | MERN Stack, Responsive Web Design [Link](#) | [GitHub](#) Sep/2025 – Oct/2025

- **Developed** a multi-language code execution engine supporting **50+ submissions/min** with isolated, optimized processing
- **Cut** page load time by **35%** through lazy loading and modular React component architecture
- Designed a **gamified system (XP, achievements, analytics)** improving engagement by **~40%**
- **Delivered** REST APIs handling **200+ requests/sec** with optimized MongoDB queries averaging **<100ms** response time

TRAINING

Logic Building and Programming in DSA [Link](#)

- Completed **300+ hours** of C++ and DSA training covering arrays, linked lists, trees, graphs, and dynamic programming
- Applied OOP principles in C++ to design modular, maintainable role-based system architecture
- Built a **Complaint Management System** in C++ with dual role access, users submit complaints, admins review and resolve

CERTIFICATIONS

Frontend Developer(React)	Hacker Rank	Link	Dec/2025
Introduction to Node.js	Linux Foundation	Link	Dec/2025
Cloud Computing Fundamentals	Nptel	Link	Nov/2025
MongoDB Aggregation Fundamentals	MongoDB	Link	Sep/2025

ACHIEVEMENTS

5-Star Badges on Hacker Rank C++
Solved 250+ problems on LeetCode
2× State-Level Basketball Gold Medalist

EDUCATION

Lovely Professional University Punjab, Phagwara, Punjab
Computer Science and Engineering - CGPA: 8.01 2023 – Present

Kendriya Vidyalaya BHEL Haridwar, Haridwar, Uttarakhand
12th with Science - Percentage: 74.60 2022 – 2023

Kendriya Vidyalaya BHEL Haridwar, Haridwar, Uttarakhand
10th with Science - Percentage: 88 2020 – 2021
